"Intoxication from, or the use, display, or possession of alcoholic beverages or any controlled substance (drug) or drug paraphernalia is prohibited unless the student has a valid prescription for the use of the controlled substance is strictly prohibited by the WSCC Code of Conduct. Furthermore, intoxication from, or the use, display, or possession of alcoholic beverages or any controlled substance (drug) on any area of the WSCC campus is prohibited. This includes the presence of empty or full alcoholic beverage containers." (2017-18 WSCC Catalog page 57)

Security/Enforcement:

The primary sources on campus that enforce the alcohol and drug policies are the Campus Police Department, the Housing Director, and the Dean of Student's Office. For instances involving employees, the Office of Human Resources works with the Office of the Dean of Students to handle interventions and/or sanctions. It is the primary responsibility of the Dean of Students to assess instances of infractions by students and to determine sanctions or involve the Campus Judicial Board which will recommend any necessary sanctions.

WSCC Police Department compiles statistics related to campus incidents and reports those to appropriate offices, including that of housing (if appropriate), Dean of Students and President. They also assist in carrying out lawful behavior on campus.

Students and employees should be aware of the various federal penalties for drug related convictions as well as State or System Office sanctions. These can include termination of employment, disciplinary expulsion, suspension or probation, and arrest.

Heads UP Counseling Services:

Wallace State Community College has options available for students and staff members who need to address alcohol and other drug abuse issues. The college has an agreement with a local community health organization, Cullman Mental Health, to provide, at discounted rates, counseling for students and staff members through referrals through the Heads Up Program. The program serves as a counseling referral service but it also has a primary goal to address underage drinking and binge drinking among WSCC community. The office was set up in the prominent Student Center in January 2007 as an environmental prevention project funded through a state grant/partnership.

The college prohibits any form of on-campus (or campus affiliated) use and/or possession of illegal drugs, drug paraphernalia, or alcoholic beverage by students, which is in direct violation of local, state, and federal law.

Students found to be involved in any of these activities are subject to disciplinary action including program dismissal.

Education of health profession students at Wallace State Community College requires collaboration between the college and clinical agencies. Education of these students cannot be complete without a quality clinical education component. The College shares an obligation with the clinical agency to protect, to the extent reasonably possible, the agency's patient due to students who are under the influence of illegal drugs or alcohol while in the clinical agency.

The College wishes to ensure that the health and safety of students and patients are not compromised, and that clinical affiliation agreements exist to provide students with quality clinical education experiences. Therefore, it is the policy of Wallace State Community College-Hanceville that students enrolling in health profession programs submit to drug testing. This testing can be announced or unannounced and will occur upon admission and annually thereafter, for cause or at random intervals. This policy authorizes drug testing of students who voluntarily choose to enroll in health profession programs at the college. Any student enrolling in a health profession program will be required to submit to such testing.

Guidelines for drug testing of health profession students are available with their respective health orientation and health program handbook. The college shall include the policy and procedure for Drug Testing of Health Profession Students in the college catalog, on the college's website, in the student handbook for each program, and other appropriate college publications to ensure adequate notice and distribution. As stated in the disclaimer in the Wallace State Catalog, college policies are subject to change.

Marketing:

WSCC Marketing provides campus publications, such as the WSCC Catalog and semester schedules, that provide sources of information for the campus community. They also monitor and update the College website which also depicts a wealth of information for students, staff, and potential students.

Health Risks and Effects of Drugs and Alcohol:

Alcohol consumption and drug usage can cause a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including domestic violence and date rape. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. Repeated use of alcohol and drugs can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including

severe anxiety, tremors, hallucinations, and convulsions. Long-term consumption of large quantities of alcohol and/or drugs, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.
